

Project 1 Concept Assignment

Submit a brief concept document (about **1 page**) where you detail what you want your Project 1 to look like. You should review the 4 primary options presented to you on the assignment overview and options sheet and decide which of the options you want to pursue.

Your concept document should include the following:

- Which of the **four** options presented for your project best aligns with your concept for Project 1?
- Explain your idea for Project 1 in some more detail. Describe at least **three** points or items you want to cover in your multimedia narrative.
- Describe what **medium** you want to use to craft your multimedia narrative (written, images, visual design, recording, map, etc). What do you want your project to look like?

Submit your concept on Brightspace by **Friday, September 4th at 11:59pm**. It is worth 15 points.

You will receive feedback from me that will include suggestions for completing your project successfully, as well as the scope and length of your project.
